ORDINARY

Color Match
POOL FITTINGS, INC.

LETTER FROM THE PRESIDENT

COLOR MATCH POOL FITTINGS

Color Match Pool Fittings began with the idea of creating products that would blend with any pool finish and not detract from beautiful pool designs. We launched our first Pebble Top Drain Cover in 1999, making the only disappearing drain that blended both beauty & function.

Today our innovative products include a complete Pebble Top Portfolio of drain covers, floor returns, pole holders, and pop-up cleaning heads that blend in using any plaster, aggregate, or tile finish. We've also applied this same technology to the vinyl market with the only disappearing Vinyl Top Drain Cover.

We take great pride in being a leader in innovative pool products that your customers will love and that will set you apart from your competition.

We look forward to partnering with you as we go beyond ordinary and take your pool designs to the next level.

Todd Krombein
President

WHAT IS **PEBBLE TOP TECHNOLOGY**

Our patented Pebble Top Products have unique fillable lids that adhere the same plaster, aggregate, or tile being applied in the pool, directly to the top of the drain cover or fitting.

By matching the exact finish, they virtually disappear into your pool or spa.

PEBBLE TOP TECHNOLOGY

“ Making your drains and fittings disappear into your pool or spa

Our patented Pebble Top products have fillable lids to match any finish making the drains and fittings disappear into your pool or spa. This unique feature adheres the same plaster, aggregate, or tile being applied to your pool, directly to the top of the drain cover or fitting for a perfect match.

Stop using plain drains that stand out and detract from the look of your beautiful pool design. Take your designs to the next level by using our complete line of pebble top products, including drain covers, floor returns, pole holders, and pop-up cleaning heads. You and your customers will be amazed at the Pebble Top difference.

NOT JUST FOR PEBBLE FINISHES

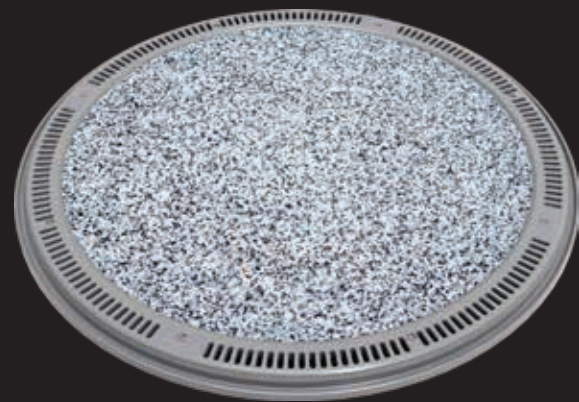

Don't let the name fool you. You can apply any plaster, aggregate, or tile (as shown below) to our Pebble Top Drain Covers. With eight designer colors, including Clear, you're sure to find the perfect match for every pool finish.

Water Stop Pipe Sleeves

FEATURES

The most common place for a pool to leak is along the pipe lines. Prevent that from happening by using our Water Stop Pipe Sleeves. Our Water Stop Pipe Sleeves are glued to the pipes, creating a water barrier that virtually eliminates water leaks and costly repairs.

- Prevents leaks due to expansion and contraction of plaster and/or other finish materials
- Helps prevent costly repairs
- Available in 5 sizes for: 1" Pipe, 1 1/2" Pipe, 2" Pipe, 2 1/2" Pipe, and 3" Pipe
- Manufactured from High Grade PVC
- Proudly made in the USA
